

Yukun Jiao

yukji739@liu.se yukunjiao.github.io

Education

Linköping University , Norrköping, Sweden MSc in Computational Social Science	2024 – 2026
Civil Aviation Flight University of China , Sichuan, China BSc in Transportation	2018 – 2022

Research Interests

Symbolic boundaries; meaning-making and identity construction; online communities; computational text analysis.

Thesis

Mapping Symbolic Boundaries on r/incels: The Semantic Construction and Change of Ingroup and Outgroup Categories in Incel Boundary Work
Master's thesis, Linköping University, in progress.

Research Internship

The Complete Network of Sweden	July 2025 – January 2026
--	--------------------------

Publications

Nordlund, C., & Jiao, Y. (2026). Threadle: A memory-efficient network storage and query engine for large, multilayer, and mixed-mode networks. *arXiv preprint arXiv:2603.04446*.
<https://arxiv.org/abs/2603.04446>

Service

Volunteer and project participant, [SICSS-IAS 2025](#)

Assisted with event activities; participated in a group project on elite networks in ancient China.

Volunteer, [IC2S2 2025](#)

Assisted with conference activities.

Skills

Technical: R, Python, LaTeX

Methods: computational text analysis; social network analysis

Languages

Chinese (native); English (proficient)
